

Confidential SIL Transition Support

NDIS SIL registration is changing.

New SIL providers are required to register from 1 July 2026, with existing providers transitioning to the new registration requirements by 1 October 2026.

For many organisations, registration will be the right next step. For others, the increased governance, compliance and operational requirements may prompt a different decision.

If registration isn't the right path for your organisation, Vertaview Group offers a confidential way to explore your options - whether that's transitioning participants, exiting the market or becoming part of a larger, established provider.

Whatever path you choose, our priority is protecting participants, supporting your workforce and preserving the value you've worked hard to build.

From 1 OCT 2026, new registration requirements apply to every SIL provider.

Your Options: Three Pathways

Every provider's situation is different. Whether you're planning ahead or simply exploring what's possible, we'll help you understand the options available and guide you through the process confidentially. Three pathways, one confidential conversation

Whichever is right for you, we'll guide you through the process.

Pathway 1: Exit your organisation

If you've decided registration isn't the right long-term path, we'll help you transition out of the sector professionally and with confidence.

Removes financial burden

Preserves reputation

Pathway 2: Transfer your services

If you want participants to continue receiving high-quality support through an established registered provider, we'll work with you to plan a safe and well-managed transition.

Protects participants

Reduces risk

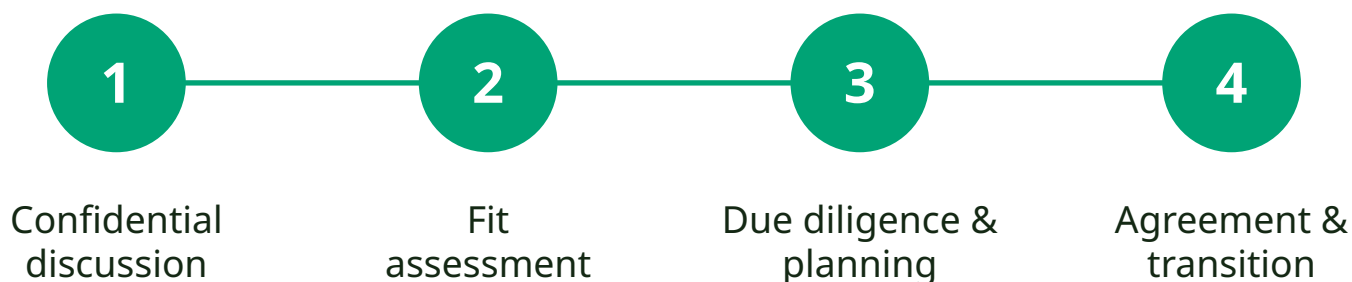

Pathway 3: Explore Acquisition

If you're considering selling or merging your organisation, we'll work with you through a confidential, structured process that respects the legacy you've built.

Reduces risk

Preserves reputation

How It Works:

Why Vertaview?

- ✓ Established registered provider with proven governance
- ✓ Financial strength for sustainable transitions
- ✓ Experienced clinical and operational leadership
- ✓ Participant continuity built into every plan
- ✓ Confidential and respectful, from first conversation to completion

We are here to help.
Every enquiry is confidential.
